

Thunder Bay and District Community Garden Use Agreement

Community Garden:

I acknowledge that I have read the Community Garden Safety Guidelines as recommended by the Thunder Bay District Health Unit (TBDHU). I understand that these guidelines are to be followed at all times while using any community garden within the City of Thunder Bay and district communities. I will follow all necessary protocols related to garden access, physical distancing, hand hygiene and cleaning or disinfecting.

I understand that these guidelines are to ensure the health and safety of myself and my fellow gardeners, and to decrease the risk of spreading Coronavirus. By not following the guidelines, I may be putting myself and others at risk. Repeatedly not following the recommendations may result in the community garden coordinator(s) asking that I not take part in the community garden until a later date when things are safer. There is the possibility that multiple cautions at one community garden may result in the discontinuation of that garden.

If I have any questions or concerns about the guidelines, I will communicate them with the community garden coordinator(s). I can also contact the Thunder Bay District Health Unit to learn more about the recommendations at (807) 625 5900.
