## Application for Minor Variance

Under Section 44 & 45 of the Planning Act  
Committee of Adjustment of the Municipality of Shuniah

### Note to Applicants:

An application to the Committee of Adjustment may not be considered without the following:

- 1) a pre-consultation meeting with Shuniah staff to determine feasibility of your proposal;
- 2) possibly the approval of the Thunder Bay District Health Unit. Please contact the Thunder Bay District Health Unit, Septic and Land Division Section, for guidelines and fee structure. Phone 625-7990;
- 3) a complete application (see below) in a paper and electronic PDF format.

The application fee (LRCA + Shuniah) is non-refundable whether the application is approved or denied.

In this form the term "subject property" or "subject lands" means the land to be severed and the land to be retained.

Site visits are required. Submission of this application constitutes tacit consent for authorized Municipality of Shuniah staff to inspect the subject lands or premises.

Pre-consultation is mandatory to avoid delays in the formal review due to missing information.

### Completeness of the application:

The applicant must provide a complete application with the appropriate fee. If the complete application and fee are not provided, the application will be returned, or refused for further consideration until the information and fee have been provided.

The information required by the applicant is prescribed by the Schedule to Ontario Regulation 200/96 made under the Planning Act. A Planning Justification Report is also required (see Schedule B). To be considered a complete application, the prescribed information must be provided with the appropriate fee. If the prescribed information and fee are not provided, the application will be returned, or refused for further consideration until the information and fee have been provided.

The application form also requests other information that will assist the Municipality and others in their planning evaluation of the minor variance application, including preparation of a Planning Justification Report (see Schedule B). To ensure the quickest and most complete review, this information should be submitted at the time of application. In the absence of this information, it may not be possible to do a complete review within the legislated time frame for making decisions. As a result,

the application may be refused. *Applications to the Committee of Adjustment are processed in accordance with Provincial Legislation and information provided by the applicant. It is, therefore, the responsibility of the applicant to ensure the accuracy and completeness of the application PRIOR to its submission to this office.*

Meeting dates will only be determined upon receipt of a COMPLETE application. Once the application is determined complete, revisions and/or changes to the application, including dimensions will not be allowed. Please ensure the accuracy of your application. Errors or omissions may require a further application and additional expense. Confirmation of the current zoning on your property may be obtained from the Planning Department. The hearing agenda and supporting documents will be made available to the public on the Shuniah website, [www.shuniah.org](http://www.shuniah.org), for further information please contact our office.

### Submission of the Application:

ONE paper and ONE PDF electronic version of application package is required, including a sketch along with the fees (LRCA + Shuniah), and Authorization from the owner if applicant is not the owner. The application MUST be signed by the owner(s) or authorized agent in the presence of a Commissioner, Notary Public, etc. The application and supporting documents will be made available to the public on the Shuniah website, [www.shuniah.org](http://www.shuniah.org), for further information please contact our office.

### Next Step:

The applicant (Owner) or authorized agent is requested to attend the hearing to respond to any questions or concerns the committee or persons present may have. In absence of authorized representation, the committee may defer an application or render a decision.

### Disclosure of information:

All information submitted in support of this application will be considered public information, including any reports, studies, drawings or other documentation submitted by applicant(s), agent(s), consultant(s) or solicitor(s). The Municipality of Shuniah is permitted to make the application and any associated supporting information available to the general public, including posting electronic versions of the application form and associated studies and reports online. The Municipality of Shuniah is also permitted to provide copies of the application and any supporting information to any member of the public or other third party which requests the information.

Schedule B

PLANNING JUSTIFICATION REPORT

- A **Planning Justification Report** is a report provided by an applicant as part of a complete application which:
- describes the subject property, its existing physical conditions, and its context within the surrounding community;
  - outlines the Proposed Application;
  - provides an overview of the relevant planning policy and regulations that affect the planning application, including Provincial Policy Statement, Growth Plan for Northern Ontario, the Shuniah Official Plan and any other related policy, regulations and guidelines;
  - details potential adverse effects or impacts;
  - summarizes each of the technical studies triggered by the potential adverse effects or negative impacts;
  - details how adverse effects or negative impacts will be minimized or the mitigation measures with contingency plans; and,
  - provides planning opinion and justification for the proposed development Application.

The level of detail for the planning justification shall be appropriate to the complexity or potential impact of the proposal; and/or in accordance with relevant Official Plan policy sections.

In the case of a Minor Variance, the Planning Justification Report is a statement which summarizes the information required by the Planning Act that also gives the applicant an opportunity to explain in their own words what they are seeking to achieve and why.

The Planning Justification Report must describe how the four tests of a minor variance are met; specifically:

- 1) Is the application minor?
- 2) Is the application desirable for the appropriate development of the lands in question?
- 3) Does the application conform to the general intent of the zoning by-law?
- 4) Is the application consistent with the general intent of the official plan?

And conclude by addressing potential adverse effects and compatible development (see \*below).

**Sample Planning Justification Report Format for a Minor Variance**  
*Title: Planning Justification for a Minor Variance application to allow \_\_\_\_\_, located at \_\_\_\_\_*  
1. In summary, the reason for the request is to \_\_\_\_\_  
2. The proposed development is minor because \_\_\_\_\_  
3. The proposed development is desirable and appropriate because \_\_\_\_\_  
4. The proposed development conforms to the general intent of the zoning because \_\_\_\_\_  
(must review what is permitted in the zoning by-law and list or cut and paste the applicable section(s)).  
5. The proposed development is consistent with the general intent of the applicable official plan policies (must review the Official Plan to find applicable sections) as supported by section(s) (either list or cut and paste).  
6. The potential adverse effects are \_\_\_\_\_; but will have little to no impact because the following (mitigation) measures will be implemented \_\_\_\_\_.  
Therefore, the resulting development will be compatible. (See \*below for explanation of compatible development and adverse effects).

**\*Compatible Development (excerpt from the 2020 Shuniah Official Plan)**  
In order to proceed, all new development requiring a Planning Act approval shall be compatible with existing uses in the vicinity by avoiding adverse effects or minimizing adverse effects to acceptable or negligible levels, and where applicable, in accordance with Provincial guidelines.

Where a development initiative has the potential to be incompatible with or cause adverse effects to other land uses/users in the vicinity, appropriate technical studies evaluating compatibility; and mitigation using avoidance, buffering, separation distances or other measures, shall be part of the planning justification in a complete application (see section 4) as determined by Shuniah.

Potential **Adverse Effects**

- Common potential adverse effects of a proposed development relate to, but are not limited to:
- pattern, scale, massing, design of development, servicing levels of existing and future development;
  - visual impacts relating to outdoor storage;
  - shadowing and/or lighting and/or visual impacts on surrounding land uses including privacy of adjacent residential uses;
  - traffic volume and safety;
  - vehicle access and parking;
  - hydrological and hydrogeological functions;
  - surrounding natural heritage features and cultural heritage resources; and,
  - noise, vibration, odour, dust and other contaminants or emissions.

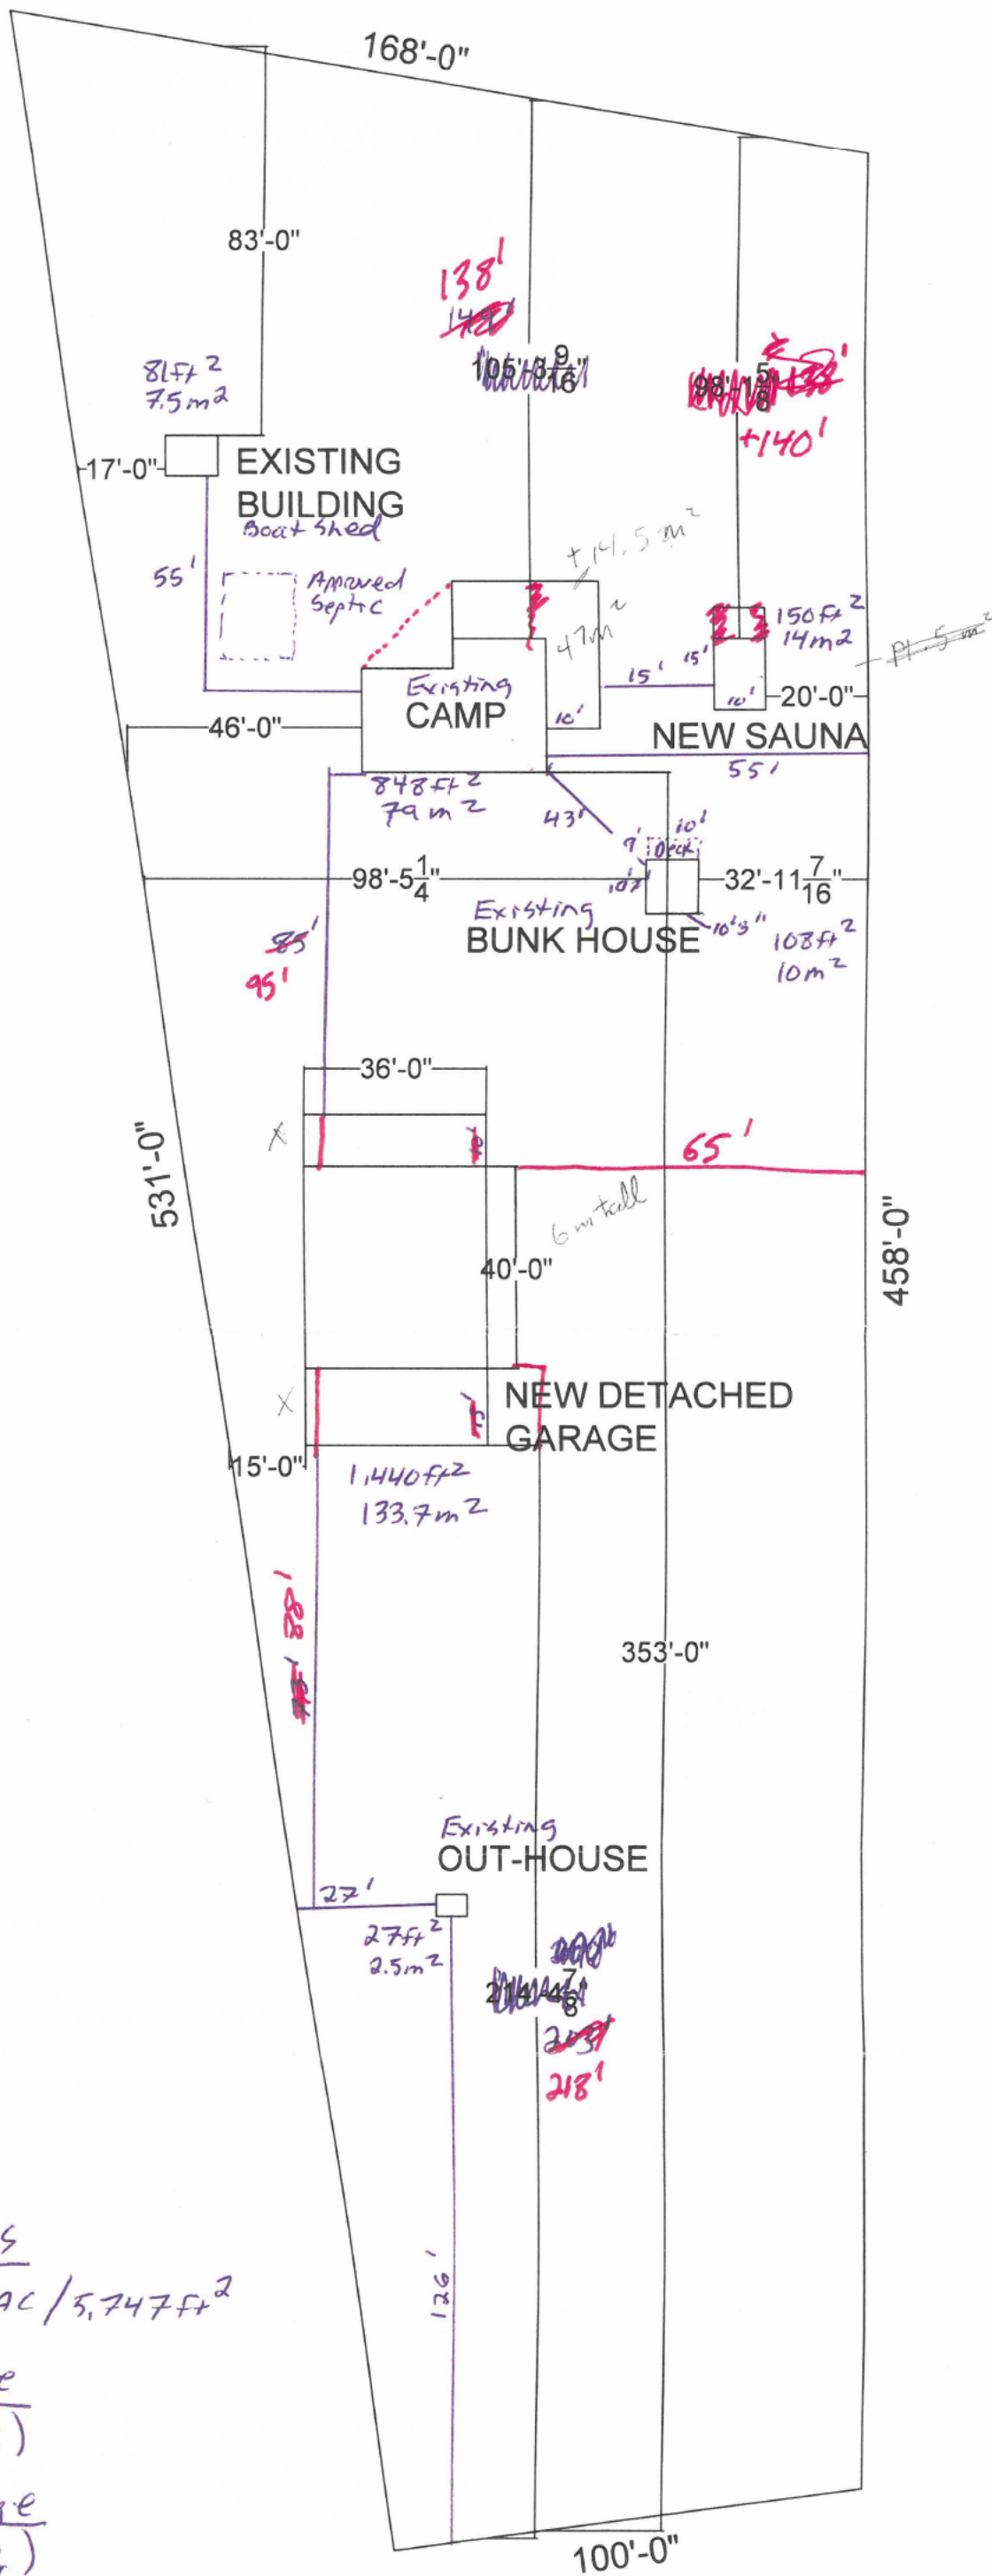

Potential adverse effects (for sensitive uses) as defined in the Environmental Protection Act, means one or more of:

- a) impairment of the quality of the natural environment for any use that can be made of it;
- b) injury or damage to property or plant or animal life;
- c) harm or material discomfort to any person;
- d) an adverse effect on the health of any person;
- e) impairment of the safety of any person;
- f) rendering any property or plant or animal life unfit for human use;
- g) loss of enjoyment of normal use of property; and
- h) interference with normal conduct of business.

## Schedule B to Application For Colby

1. The reason for this request is to be able to build a garage. Garage is necessary to store boat, quads, snowmobiles, canoes, kayaks, camping + fishing equipment, carpentry tools + exercise equipment. These items need to be stored securely which is not possible without the garage. Garage is sized to comply with Shuniah building size by-law while being sufficiently large to store aforementioned equipment.
2. The proposed development is minor because the proposed new accessory buildings will only increase building coverage by 2% to 4%. Neighbors will be unaffected.
3. The proposed development is appropriate because it increases the value and quality of the property. In conjunction with this project, a Class 4 septic system will be installed, reducing the environmental impact of the property. The outhouse will either be removed or replaced with a green alternative approved by the Dept. of Health.
4. + The proposed development conforms to the <sup>(Section 19.3 maximum accessory coverage)</sup> general intent of the zoning and applicable official plan (Sections 2.2.5 and 2.4) because the use of the property will not change, the new accessory buildings will represent an immaterial proportion of the property area and the environmental impact of the property will be improved.
5. The proposed development conforms to the <sup>(Section 19.3 maximum accessory coverage)</sup> general intent of the zoning and applicable official plan (Sections 2.2.5 and 2.4) because the use of the property will not change, the new accessory buildings will represent an immaterial proportion of the property area and the environmental impact of the property will be improved.
6. The potential adverse effects are more buildings on the property, which will require cutting down some trees, however the changes will be to a very small percentage of the property (2%). The environmental impacts of installing a class 4 septic system and either removing or improving the outhouse will be favorable.

- Keeping outhouse in since  
I am pursuing Dept. of Health  
approval for chemical toilet  
(green toilet)

↓  
Round to 180m<sup>2</sup>

- may want to put  
small deck on sauna  
eventually  
- deck would be low to  
ground (permit not  
req'd)
